OVER THE SHAWANGUNKS.

WHAT OUR NEIGHBORS IN SULLIVAN COUNTY ARE DOING.

On the West from All Parts of the County—Many Farmers of Interest Connected with Our Sullivan Exchange and Contributed by Wide-Awake Correspondents.

—William Jones, who has run a market wagon from J. H. Hersonville to Newburgh for the past eight years, has given up that business. This was the last of the many market wagons which used to run from different villages in this county carrying farm products to Newburgh and returning loaded with merchandise.

—The poles for Liberty's telephone system have been ordered from Hancock and the work of putting up the line is to be begun immediately. The incorporators of the company are R. G. Vassar, J. C. Young, C. S. Messiter, Thos. Houlthorn, Van H. Pruyn, E. G. Sarles and George H. Carpenter. Capital stock \$5,000.

—Frank Campbell, of Warwick, Orange county, was buying oxen in this vicinity last week. He secured five yoke of very good cattle. Oxen are not so plentiful in this county as they were some years ago. Cows are selling readily and at good figures, considering the price of milk and butter. Hay has been plentiful and cheap all winter, but in case of a moderately cool April, the old crop will probably all be consumed.—Liberty Gazette.

—John Knapp has completed his summer boarding house, at Hurleyville. It has accommodations for about 100 guests, is heated by steam and has hot and cold water and bath rooms on every floor.

Alert Horse Company's Field Days.

Alert Horse Company, of Norwich, and the Chenango County Agricultural Society are arranging for a grand field day exhibition on the fair grounds at Norwich, July 3, 4 and 5. Horses, horse and bicycle races, prize drills and all kinds of athletics will be among the attractions. The business men and citizens of Norwich have made liberal subscriptions to the fund for the payment of preliminary expenses.

The Alerts were the guests of Eagles, last fall and it is probable that some members of the latter company will find it convenient to visit Norwich during the exhibition.

Military Training Proposed in Binghamton's Schools.

Binghamton's Board of Education has been asked by the G. A. R. to establish a military drill for the boys in the public schools of the city. The plan proposed is to organize one or more companies in each school, each company to be officered by boys of the school, and the G. A. R. thinks one hour a day enough time to devote to drill. One member of the Board expressed the opinion that if a military drill was a good thing for boys it would also be a good thing for girls and urged if the drill was to be made a part of school duty that girls and boys both be drilled.

UNION COMMUNICATION.

Mr. Stead is a Firm Believer and Explains What He Means by It.

W. T. Stead, the English editor who has been creating a series of sensations in Chicago speaking there of the "criticism" messages he has received from instant people by the telegraphic process, said: "I have had many of them since I have been in Chicago. I place so much reliance on some of them that I should receive a communication in this way from some of my friends I should act on it with the same certainty that I would if I received the same message by post. "If their request was for a 25 note, I should send it without hesitation if the circumstances were such that I would have sent it if the communication had been in the ordinary way. If I were the editor of a daily paper, I could receive a great many of my telegrams in this way without the expense of telegraphic tolls. The only reason that I could not receive all of them in this way is that the communication between all mediums is not equally perfect or trustworthy, and those on whom I could rely would not always be in the place where the events of interest were occurring."

Now, why is it that so much of what imports to be spirit communication is of an intangible? Well, for one thing, the greater part of what is spoken and written by persons still in life is rot and nancy, senseless chatter. And the mere fact that a mind has been disembody does not endow it with wisdom. "Man's body is merely an animated, two-legged telephone, through which, by the organs of speech, the eyes, the gestures and motions of the body, the mind communicates at short distances with other minds. When the body dies, the telephone is rung off."—Washington Post.

Is Marriage a Failure?

Have you been trying to get the best out of existence without health in your family? Have you been wearing out your life from the effects of Dyspepsia, Liver Complaint and Indigestion? Are you sleepless at night? Do you wake in the morning feeling languid, with coated tongue and sallow, haggard look? Don't do it. A shout in the camp tells how Bacon's Celery King has cured others. MEN WHO ARE ALWAYS BUSY.

Palmer's Celery Compound Brightens the Eye, Increases the Appetite, Removes Sleep, Regulates the Vital Organs.

Under the stress of social or business duties, or both, few busy men find time to properly repair the waste of excessive mental labor and close confinement.

The result of this neglect is plainly to be read in the care-worn, nervous face and physical poverty of the average business man one meets.

But Palmer's celery compound brightens their eyes, increases their appetite, causes good digestion and regular action of the organs of assimilation.

Much so-called overwork of business men is the overwork of worry, care, anxiety, haste.

These make the severest drafts on their vitality. Those who suffer from nervous debility, mental depression, sleeplessness, or dyspepsia, find Palmer's celery compound a powerful restorative. It regulates the liver and kidneys, cleanses the blood, and feeds the nerves and nerve centers all over the body. Recovery from diseases of the liver, kidneys and stomach by the aid of Palmer's celery compound is lasting. It is the greatest of all modern restorative agents.

Palmer's celery compound is prescribed by physicians who differ in many other things, but agree in estimating highly this greatest of remedies for curing diseases of the kidneys, rheumatism, gout, dyspepsia, Bright's diseases and stomach disorders due to a deranged nervous system.

Denver's Municipal Council.

DENVER, April 4.—The long drawn out fight over the city's water supply in a fair way to be settled within a day or two. The supreme court agreed to take original jurisdiction of the case and proceed to hear the arguments by the city and the water company.

An Expensive Mexican Show.

CITY OF MEXICO, April 4.—The annual representation of the capture of Puebla from Emperor Maximilian by General Diaz was represented on the plaza of San Lazaro near this city on a scale of magnificence never before approached by a like event in Mexico. An entire division of the army including infantry, cavalry and artillery to the number of 5,000 participated, and the representation cost an expenditure of 600,000.

The Gang Murder Case.

WOODBURY, N. J., April 4.—The Gloucester county coroner's inquest yesterday afternoon on the bodies of the three men who were killed in the "gang" murder case, in view of the decision of the coroner's jury in the case, that death was by violence, ordered the grand jury to remand on April 15 to hear the testimony. Pending confirmation by the senate of the appointment of Prosecutor Perry, he was appointed by the court to act in that capacity.

Fatal Fight Between Tramps.

WARREN, Pa., April 4.—A gang of tramps engaged in a fight near here, and one named Sullivan, supposed to be from Titusville, Pa., was killed. Seven tramps were arrested and will be held for the murder. While making the arrest Officer Baister was seriously wounded by one of the tramps.

Undermining the Englishmen.

NEW CASTLE, Pa., April 4.—It has just been learned that the New Castle Steel company has been invading Canada and has found a good market for steel bolts. It seems that the company has not only been able to undersell the English companies, but to also make a superior quality of steel.

Incendiarism in Kansas.

EMPORIA, Kan., April 4.—Fire during the night destroyed the business portion of Emporia, a town of 2,000 people just south of here. Evidence discovered shows the fire to have been incendiary.

Costs More Than President.

SAN JUAN, April 4.—Don Rafael Tellez has been elected president of the republic of Costa Rica from May, 1901, to May, 1905. Complete tranquility reigns in the whole country.

Sales Satisfactory

Our aim always has been and always will be to give our customers an honest dollar's worth of goods for \$1. We never have advertised "Cheap John" goods at "Cheap John" prices, believing that the people of Middletown are willing to pay for what they get. If you wish cheap carpets we have them; we also have the best. If you wish cheap curtains we have them, we also give you a brass trimmed curtain pole with every pair of curtains. We will not limit you to the time.

Our store will be open from 7 a. m. to 8:30 p. m., each day, and we are always glad to show goods. We have special attractions in most every department and prices are way down. Our spring stock throughout has been selected with the greatest care, and we want your money in exchange for the goods. Come and see us.

THE

C. B. Crawford Furniture Co.

44-46 North St., Middletown.

The old fashioned way is, make them yourself. Then your label on them means something. That's the way we do. The other way is to buy them "factory made," and slap your label on. You might as well endorse a note without seeing the face of it! For instance, when we say our Beef, Wine and Iron is as good as it is possible to make it, it's because we KNOW it is so. Why, the wine (Imported Sherry) in it alone costs more than the finished product of some other brands. The same with our Emulsion of Cod Liver Oil. It's a true Emulsion—NOT A SOAP—and the oil is the finest obtainable and in just the condition to be readily taken by a delicate stomach. Then our Sarsaparilla, "Nature's Tonic." We make it—make it from the actual crude drugs. We could buy something for less money, but the quality would be lacking. If we say IT'S OURS, IT IS OURS with a record of 28 years to back it up.

McMonagle & Rogers, Druggists, 30 North St.

INFANTS' WEAR!

Some people, such of them as have not long ago discovered the fact that we supply their wants in a superior manner, hunt all over Middletown for INFANTS' GARMENTS and then come to our store. They find in our Infants' Department a collection far choicer than anything they have ever seen in this city, and prices way under our competitors. Thus our business in these things grows and thus our neighbors lose their patronage. But then this is not to be wondered at. We deal strictly in Ladies' and Children's and Infants' Wear, and carry a complete stock of these goods, and not merely carry them as a side show in our business.

A MASONIC EVENT.

Many Visiting Brethren at Hoffman Lodge, Last Night.

Hoffman Lodge, No. 412, F. and A. M., conferred the third or Master Mason's degree, last evening, upon Dr. D. H. Arthur, assistant physician at the State Homeopathic Hospital, in this city.

The event was marked by the presence of many visiting brethren from neighboring lodges and several distinguished Masons from New York city, among the latter being D. G. M. G. M. Hamilton of the Eighth Masonic District and P. M. Fred J. Brown.

The historical portion of the third degree was delivered by Brother Hamilton in a manner seldom if ever equalled in this city. At the close of the ceremony Worshipful Master W. M. Combs announced that a collation was awaiting in the supper room, but as the quarters were too small to accommodate the entire party at one sitting, he would call upon the brethren for the intellectual feast before the adjournment to the supper room. Speeches were made by D. D. G. M. G. M. Hamilton, P. M. M. D. Stivers and P. M. F. W. Brown, and Brothers D. H. Arthur, C. M. Winchester and C. C. Lutes.

The supper was served in the banquet hall adjoining the lodge room and was prepared in a most satisfactory manner by Brother L. L. Purdy. The "Musical Magnets" were on hand to enliven the occasion by their skillful playing on their several musical instruments.

A telegram was received from District Deputy Grand Master Alliger, of the Tenth Masonic District, stating that owing to illness he was unable to be present.

The sandwiches left from the banquet were given to the W. O. T. U., and doubtless the ladies found needy families glad to receive them.

AN EASTER HOP.

The Columbus Club's Ball at the Assembly Rooms—A Very Successful Social Event.

The Easter hop and reception given by the Columbus Social Club, at the Assembly Rooms, last evening, was one of the most successful entertainments ever given by the club.

About 40 couples were present, and danced to the music of Collins' orchestra of Newburgh, until 3 o'clock this morning, except for an interval of an hour at midnight, when an adjournment was taken to the Bell House, where an elegant supper was served.

Among the guests from out of town were the following: Messrs. Thomas Gannon and James Cuniff, and Misses Gannon and Egan, of Port Jarvis, and Miss Kouyue, of Montgomery.

No Commission Yet in the Matter of the New Street.

Owing to the declination of Judge Hirschberg, as the last member of the commission on the opening of the new street, from East Main Street to Sprague Ave., it becomes necessary to advertise a hearing in the matter and therefore Judge Beattie did not make the appointment of new commissioners yesterday, as was expected.

It would seem that the project of opening this street is fated. It will be a long time yet before the street is opened, and the electric road runs through it and thence to Goshen.

John Schultz at Home.

W. J. McIlvaine and John Schultz returned from Albany, last evening, on O. and W. train 5. Mr. Schultz's friends were waiting for him, some at the depot with a carriage and others at Mr. McIlvaine's hotel to give him a welcome and express their satisfaction at his escape from a term of imprisonment.

It is reported, to-day, with what truth we do not know, that the case has been settled.

Maurice Drew's Players at the Casino.

"Mulberry Bend" was the play presented by Maurice Drew's Company at the Casino, last evening. The audience was of fair proportions and was evidently well pleased with the performance. Several very good specialties were introduced. To-night, "The Danites" will be presented.

A Flash Light Picture of a Supper Party.

Miss, the photographer, took a flash light picture of the Columbus Club while at supper at the Bell House, last evening. The picture would have been all the better if the snap shot could have been taken while the decorations of the room were on fire.

Want a Steam Fire Engine Now.

Both of the Port Jervis papers are now advocating the purchase of a steamer for use at fires, the great destruction of property, Monday night, being urged as a forcible argument in its favor.

Everybody Likes

to be called handsome, especially the young ladies. But that is simply impossible as long as their face is covered with blotches and sores. But wait, there is no need of this; one or two bottles of sulphur blitters will remove all such disfigurements, and make your face fair and rosy.—Fannie Bell, Edithess.

CITY OFFICIALS IN SCRANTON.

Cordially Received by the Mayor and City Officials—They Inspect Public Buildings and the Brick Pavement.

The Scranton papers of this morning mention the visit of Mayor Stansbury, President Dorrance and Aldermen Luddington, Greene, Funnel and Mance, to that city, yesterday, to inspect the vitrified brick pavement on Madison avenue, and the fact that they were cordially received by Mayor Connell and other city officers. They were shown through all the public buildings and, we have been informed through a private source, were locked up in jail for a brief time. They may have gained valuable information in regard to city halls, lookups, etc., as well as brick paving.

The gentlemen arrived home, this morning, on O. and W. No. 6.

The Middletown officials were well pleased with the brick pavement in Scranton, and especially Mayor Stansbury, who has seen this same form of pavement in the West.

Unfortunately the Scranton pavement had not been laid long enough for the officials of that city to be able to recommend it from actual experience, and it may seem strange that the Middletowners were unable to ascertain to a certainty the exact cost of the paving. From the Mayor's office it was given out that the cost was \$1.80 per yard, and from another official source it was learned that the cost was \$2.30 per square yard.

This pavement and some other brick pavements are laid on a base of concrete and when the cost of the concrete is calculated, it may develop that a brick pavement, laid on a bed of sand, as is usually the case, and as is the James street asphalt pavement in this city, will not cost much, if any more, than asphalt blocks and, if so, the expert opinion, faunted in the Press, last evening, as to the relative cost of brick and asphalt will fall to the ground. The Press gave the cost of the James street paving at \$2.75 per square yard, but the Press knows those figures do not represent the actual cost of that work, and it also knows that if the James street blocks had been laid on a concrete base the work would have cost more than double the figures given as the cost of the Scranton pavement.

OBITUARY.

Joseph Smieth.

Mr. Joseph Smieth died of rheumatism of the heart, at his home, No. 15 Benjamin street, this morning, aged fifty-seven years.

Mr. Smieth came here from Ellenville two years ago, and has since been employed as a beam hand in the tannery of Howell, Hayes & Co.

He is survived by his wife and two sons, John and Joseph.

PUBLIC VOICE.

A Card to Patrons of the Public Library.

EDITHA ARNOTT:—Will you kindly allow me space in your paper to call the attention of borrowers at the public library to two matters of importance?

First—Hereafter no book will be renewed or transferred to another borrower's card, unless the book, as well as the card, is returned to the library. This rule is necessary in order to guard against mistakes in charging books.

Second—All borrowers are requested to protect from injury, books carried to and from the library on wet days. Some of our books have been damaged by a lack of care in this matter.

Adjusting Wages in Newburgh's Hat Factory.

The usual semi-annual disagreement between a Ferry & Napier, the Newburgh hat manufacturers and their employees as to wages for the coming six months, is in progress this week. A slight reduction in wages all around is proposed by the firm and is vigorously objected to by the employees. It is also said that the firm, while recognizing the Finlchers' Union in making up the scale of wages, will not recognize the Makers' Union. The makers, who number about eighty, will send a committee to New York to appeal to Mr. Ferry for recognition.

Maple Wax sociable of the W. C. T. U.

A maple wax sociable, the first of the season, with warm biscuit, cream and cake will be held at the residence of Alderman Luddington, 133 Wickham avenue, Friday evening, April 6th, for the benefit of the Chicago Temple. All who have mite boxes will please return them on that evening, as they will be opened during the evening. A fine literary and musical programme will be rendered under direction of Mrs. McCoy. The public are invited.

ABSOLUTELY PURE

IN ANCIENT GOSHEN.

A Sermon Concerning Indians—Another Goshen Inhabitant Shakes the Dust of the Village from His Feet—Other Local and Personal News—"Going to Tom's."

From a special correspondent

—Rev. Mr. Crook gave an interesting account of his work among the Indians of Nevada, last Sunday morning, at St. James's Church.

—Mr. J. L. Duryea left Goshen, on Monday, for Newark, where he has obtained a position in a real estate office.

—The public schools in this village will be closed next week, to allow the teachers to attend the Teachers' Institute at Middletown.

—The fire in Middletown, last Sunday evening, was distinctly visible in Goshen.

—The writer once knew a child who always spoke of a projected visit to the house of a certain friend as "going to Tom's."—Tom being the house cat. Any one who has lived under the sway of a pampered domestic animal will recognize the felicity of the expression, and often test like exclaiming with Alice during her journey through wonderland, "How the creatures do order one about to be sure." For instance, you are sitting snugly ensconced in your favorite arm chair, reading an interesting book, when you become vaguely uncomfortable and finally realize that you are gradually being hypnotized; you look up and find that the dog is standing by the door gazing fixedly at you, with an expression that you know from bitter experience means, "Come; get up and let me out." You stand it as long as you are able, but that fixed glare is too much for the strongest nerves to endure, and at last rise with a sigh to obey his mandate. He shows no undue expectation at having gained his point, but merely precedes you with tail aloft, turning every few steps to make sure that you are following. You again settle yourself when he rattles at the door and you get up and let him in. In a few moments you are disturbed by a crunching sound and, investigating, find that during his brief absence he had visited his private bone yard, dug up a favorite bone and brought it in to gnaw comfortably in the bosom of his family, and you are again obliged to disturb yourself to eject it. Then you have to get him a drink, for he informs you he is very thirsty after his dry meal. By the way, there is nothing supersensitive about a dog that has made up its mind to bring a bone into the house. You may turn him out of the door and he will with the most cheerful alacrity come in again at the window, lie down upon the hearth rug and chew away, looking up into your face the while with an expression of such perfect trustfulness that you find it difficult to be properly strict. It is then that you realize fully what that little girl meant when she spoke of "going to Tom's."

RESULTS OF A REVIVAL.

Many Additions to the Membership of the Montgomery Church.

From Our Montgomery Correspondent

Last Sunday was communion Sunday in the Presbyterian and Reformed Churches here. As a result of the good seed sown at the evangelistic services, conducted by the Rev. Arthur J. Smith about a month ago, a rich harvest was reaped. In the Presbyterian Church forty new members were received, thirty-four by confession and six by letter, and in the Brick Church, thirty-six gave themselves to God. Three weeks ago, twenty joined the Methodist Church, which makes a total of nearly a hundred souls saved by the recent meetings.

Newburgh's Day Nursery.

The Daughters of the King of the Church of the Good Shepherd, Newburgh, will open a day nursery in the parish house, next Monday. The nursery which is designed to care for the children of women who are employed during the day, will receive children from 6:30 a. m. to 6 p. m., at the nominal charge of five cents for one child, and of eight cents for two and ten cents for three of the same family. Children will be received without regard to color or age or the creed of their parents.

CASTORIA

for Infants and Children.

MOTHERS, Do You Know that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless?

Do You Know that 35 average doses of Castoria are furnished for 35 cents, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

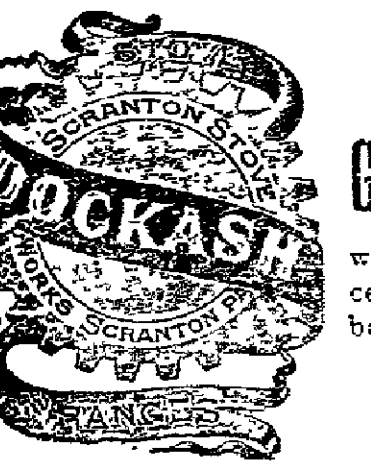

The fac-simile signature of *Chas. H. Pitcher* is on every wrapper.

Unavoidable.

Patrick Flanagan was a witness in a case where truthfulness compelled him to give some testimony against the man on trial, who was a particular friend of his. Patrick's ordinarily rich brogue had recently been rendered more than usually intelligible by an incident to which he referred with feeling in the course of his testimony. He was frequently called upon to repeat his answers, which were evidently made under protest, and between these constant requests and the long word, with which the man of the courtroom seemed to Patrick to be filled his anger rose, and his confusion steadily increased.

"Don't quarrel," said the judge at last as Patrick returned a surprisingly incoherent answer to a question addressed to him.

"Prevaricate, is it?" cried Mr. Flanagan, with angry resentment. "Or'm chialkin maybe it's jerself wouldn't be able to help prevaricate when three av yer honor's front teeth had been knocked out av yer head, sorr?"—Youth's Companion.

A Moderate Fee.

"Say, mister, gimme 10 cents!" exclaimed a bootblack as he stopped a young man on Grand street near the city hall yesterday.

"Go on, you young har!" was shouted at him.

"Who's a young har?"

"You are."

"What about?"

"You don't have to support no family?"

"Who said I did? I wasn't askin for 10 cents to support a family on, but to make me up in black. Come down."

"See here, boy," said the young man as he came to a halt. "I want you to go on. Maybe you think you've struck a hayseed. By what right do you ask me for 10 cents?"

"Fess."

"Fess for what?"

"Fess fur takin out a marriage license in thar 10 minutes ago."

"I—I took out a marriage license, did I?"

"You did, and you don't want the reporters to get onto your shape either."

"What am I shapin?"

Badly warped—feet too big—toes turn in—hair off color. Everybody says my charges are very moderate. One time, if you please."

The young man looked indignant for a moment, but he finally seemed to think it a wise policy, and handed out the coin, with the remark:

"Boy, I rather like cheek, but don't pursue this thing too far."

"No, sir, I won't. I haven't said a word about the shape of the gal, you know, and this insures my total silence. Good lands, sir, but I did a put the reporters onto that blacked hair—them No. 6's—the lemon colored eyes—you'd never got over it all your born days. Ta ta, chappie. Good thing you happened to meet me instead of some of the voracious crowd which never takes less'n 20 cents and then gives it away that the mother-in-law is to live with the happy couple!"—Detroit Free Press.

Formal Preaching.

The skeleton of a sermon, as its name implies, is better kept concealed. It is meant for use, not for show.

Sixty years ago according to Dr. Mines, there was a French Huguenot preacher in New York—a queer little man of unimpeachable learning and dullness—who modeled his sermons exactly after the pattern laid down in Claude's "Essay on Preaching." Usually he preached in French, but when he resorted to English the effect was irresistible.

He not only built his discourse upon a set plan, but was careful to have the fact known and appreciated. To that end he announced in turn each of his divisions.

"Now we have de oration," he would say gravely, and then, "Now we have de peroration."

His masterpiece of effectiveness was exhibited when, with a befittingly solemn face, he gave out "one thrilling announcement."

"And now, my friends, we come to de past-tic."—Youth's Companion.

SHOTS HERE AND THERE.

AN 'ARGUE' MAN OFF DUTY AIMS AT SEVERAL SUBJECTS.

"The Influence of Women" Discussed by Prof. A. Adler—A Theoretical Treatment of the Woman Suffrage Question—An April Fool Trick—The Original "Army of the Commonwealth"

"The Influence of Women" was the theme of Prof. Adler's lecture before the New York Society of Ethical Culture, last Sunday. The subject was treated broadly and sympathetically. And the lecture, like all of Prof. Adler's efforts, was scholarly, logical, earnest and graceful in both thought and action. A view of the subject was run through it all, and it was almost with reverence that the lecturer spoke of the power of woman's beauty, of her self-abnegation, gentleness, purity and truth, and of the security of motherhood.

Prof. Adler asserted that woman has been the great civilizer and educator of the race, not by meeting force with force, but through the sentimental and moral elements of her nature, by her "radiant personality and the new faith in the good which she inspires in all who come in contact with her." If, however, woman is to retain her ideal influence over men, it is very clear to Prof. Adler that there must be an expansion of her intellectual life, and he referred with pleasure to the fact that many women, realizing this, were devoting at least a part of their time daily to intellectual occupation.

The concluding portion of the lecture, in which the woman suffrage movement was discussed in a special interest at showing the peculiar bent of the lecturer's mind. Always a student of theories, Prof. Adler professes to be theoretically right even though he is practically wrong. He will chase the rainbow of a theory no matter how long and elusive the pursuit. Rather than not have a reform just the way he wants it, and just the way he wants it to be brought about, he is willing that there shall be no reform at all. Thus it is with woman suffrage. He says that on principle women should be allowed a voice in affairs of government, but he holds aloof from the present woman suffrage movement because he thinks it a great wrong that ignorant women should be allowed to vote. All who take a practical view of the matter recognize that the session of the constitutional convention will give the woman suffragists the opportunity of a life time,—that it is now or never with them. They also recognize that there must be no division of sentiment or effort, that the fight is a hard one, with the odds against them, and therefore all who favor the ballot for women have united in making warfare on that odious word "male" in the present constitution which bars women's path to the ballot box. Prof. Adler prefers to hold to his theory, that ignorant women should not vote, and because he cannot give women the ballot in just the way he thinks she ought to have it turns his back on a movement in which he believes "on principle."

Port Jervis jokers played a very successful April Fool trick on the authorities and law-abiding citizens of Middletown. They caused the news to be spread abroad that a prize fight was to take place there, Sunday afternoon, and the authorities hastened themselves to prevent the disgrace of a Sunday afternoon prize fight in their little village. So when a party crossed the bridge carrying a bundle which was supposed to contain gloves and other paraphernalia for the fight, they were stopped and the bundle seized. The bundle when opened was found to contain only a few heads of cabbage, and the shouts of laughter with which the crowd jeered the officers were almost as uncalculated to the peace and quiet of Sunday afternoon as a prize fight would have been.

History repeats itself and there is nothing new under the sun. Coney, who is generally believed to be an original sort of crank and to have hit upon a new idea when he got together his aggregation of "tramps," is only a feeble imitator of "David," the son of that Ephraimite of Bethlehem-judah, whose name was Jesse. David gathered together the first Army of the Commonwealth at the Cave of Adullam, and it was composed of much the same kind of material as Coney's latter-day organization. In I Samuel xxii. 3 we read: "And every one that was in distress, and every one that was in debt, and every one that was discontented, gathered themselves unto him (David); and he became a captain over them; and there were with him about four hundred men."

Kidney trouble and indigestion Mr. Tedder Yates, of Randall, N. Y., writing to C. I. Hood & Co., Lowell, Mass., makes this statement: "My wife suffered some years with indigestion, when she began the use of Hood's Sarsaparilla. After a short time she began to experience considerable relief and is now quite well. She has also suffered from indigestion, but is better now."

THE SABBOT OF INGRATITUDE.

An Old Man Dies in the Poor House, After Giving His Property to His Children.

Another instance of the ingratitude of some children was furnished in the death last week of an Orange Farm of Benjamin Reizen. He was an old man and his last days were spent in the county house, all because he allowed his two sons to induce him to deed them his property. The Newburgh News says the old man owned a fine brick house, the income from the value of which would have made him comfortable all his remaining days, but he deeded the property to his sons, Benjamin and Dayton. It was not long before he was turned out of the house.

A law suit followed and the old man recovered about \$200, and when all but \$50 had been expended he gave that sum to a well known business man to pay his funeral expenses and went to the county house to die, and when death came, he was given a decent burial.

The house which he deeded to his sons was recently sold for \$5,000.

TO LEAVE MIDDLE TOWN.

Mr. Fred. T. Graham to Go to Olean—A New Manager for the Store of G. B. Adams & Co.

Mr. Fred. T. Graham, the manager of the store of G. B. Adams & Co., in this city, will leave town, next week, for Olean, where he will have the management of one of the floors of the new store recently erected there by the firm. The new store means an enlargement of the business, which will require the services of two managers and may be still further increased during the summer by the erection of a large addition to the building and by adding new departments in the business.

Mr. Graham has been in Mr. Adams's employment for the past eleven years. He first served four years in the Middletown store, and then was assistant manager of the store at Olean, and for the past two years has had the exclusive charge of the Middletown store. He has many friends here who will regret his departure.

Mr. Graham will be succeeded here by a Mr. Westervelt, of the store of the Albany Dry Goods Company, of which Mr. Adams is President, who will bring his family here to reside. Mr. Westervelt is a native of Chester.

PORT JERVIS WATER COMMISSIONERS.

The Board Organized—The Members Terms of Office.

The Port Jervis Board of Water Commissioners organized, last evening, by the election of Geo. W. Dowe as President and Robt. Kirkman, Secretary.

The Board as elected consists of three Democrats and three Republicans. Complying with the law they allotted the terms of service as follows: E. A. Wells and Thos. Ludlum, one year; A. C. Duff and M. Brox, two years; Geo. W. Dowe and R. Kirkman, three years.

One Democrat and one Republican go out each year and their successors are to be elected by the people as they are in this city.

THE CONGREGATIONAL SOCIABLE.

A Good Attendance and a Fine Entertainment and Supper.

The sociable given last evening by the ladies of the First Congregational Church at the residence of Mr. R. M. Ayers on Washington street, was well attended, and we have it on the word of some of those present that all spent a most enjoyable evening.

There was an excellent literary and musical entertainment, lasting about an hour, and a good supper, the remainder of the evening being spent in other social enjoyments. The financial results of the affair were entirely satisfactory.

IN THE RAILROAD WORLD.

The wages of laborers on the Hudson River Railroad have been "raised" from \$1.25 a day for nine hours' work to \$1.35 for ten hours' work.

Confirmation Classes in Grace Church.

The confirmation classes will begin, this evening, in Grace Church. Junior candidates from 7 to 16; seniors from 16 to 18 o'clock. The subject of the first lecture to the seniors will be the "Authority of the church." The classes will meet in the south transept of the church.

The Population of the State Hospital.

According to the Comptroller's report, Tuesday, 1,025 patients in the State Hospital, in this city, of whom 506 were males and 514 females. During the week two patients were admitted and three discharged.

HUDSON VALLEY FRUIT PROSPECTS.

The Outlook This Year for a Large Crop is Very Promising—From the Dutchess Register.

The fruit growers in the Hudson Valley had an abundance of buds on the apple and pear trees, and the outlook thus far for a large crop in this section looks very promising. Apple trees especially are covered with fruit buds. Pear trees also are well budded but not so profusely in some orchards as the apple trees.

The peach crop was partially destroyed by the cold waves in February, and in some orchards the buds were all winter killed, but there will be a few peaches nevertheless. A large crop of cherries is looked for, as the vigorous and healthy trees are well budded. Apples will be scarce at this time of year, as it is difficult as this time to find a bud.

In the extensive vineyards the grapes show by the budding buds that the zero weather only kept them back for awhile. If there are no devastating winds like those of last year, which swept apples from the trees, just when they were ready to pick, that crop will be a very extensive one.

A Probably Fatal Fall.

Mrs. Peter G. Van Etten, an aged lady residing in Port Jervis, who was left alone during Monday night's fire, was found unconscious at the foot of the cellar stairs when the family returned to the house. She had made a misstep and fallen. Her injuries, which are chiefly about the head, may prove fatal.
